FloLight Presents CycLight at IBC 2012

Amsterdam, September 7th, 2012 - FloLight proudly introduces the world's first single fixture, LED light for greenscreen shooting: The CycLight.

Imagine, the ease and simplicity of shooting greenscreen with only one light! With the CycLight, you can finally say good bye to tweaking and fumbling with multiple lights.

FloLight's patented "Light Wave" technology limits the amount of light close to the floor and progressively increases the light for a perfectly lit greenscreen every time.

The CycLight promises to change the way you shoot greenscreen. Come by the FloLight booth at IBC and be part of the CycLight revolution.

Key Features:
- Lights an even 2 m x 3 m greenscreen
- Great for greenscreens in tight locations
- Three 40 watt high power green LEDs
- Built in dimmer
- Compact 270x200x200mm size
- Use multiple units for wider screen
- Mount on Door or ceiling
- Place just 120mm from wall

FloLight will be at IBC 2012 in Hall 11, Stand 11.D80, or you can go to the websites at http://flolight.com and http://flolight.eu
