

**FOR IMMEDIATE RELEASE**

**AURORA MULTIMEDIA ANNOUNCES HDMI/VGA WALLPLATE WITH  
HDBaseT CAT EXTENSION:**

— Aurora Multimedia's new DXW-3 incorporates the latest in HDBaseT HDMI Extenders offering a 3-gang wall-plate with 2-HDMI, 1-VGA, 3-Audio L/R input and Ethernet Pass Thru.

MORGANVILLE, NJ, June 13, 2012 (Booth C8736) — Aurora Multimedia, a leader in IP control systems and HD video distribution, announces its new Audio/Video Wall Plate for classroom and conference room applications. The **DXW-3** accepts 2-HDMI/DVI inputs and 1-VGA input each with its own analog audio input. All signals are selectable via the front plate or via RS232 and passed over a single CAT cable up to 230ft (70m) using the latest HDBaseT technology. The new wall plates do not require a power supply.

The **DXW-3's** audio inputs are all embedded with their associated video signals and passed as 1080P HDMI over a single CAT5e/6 cable to the mating Receiver module. The 3-gang installable unit also passes RS232 & IR signals over the same CAT cable and even boasts an IR Receiver on the front of the panel. VGA signals are converted to 1080P HDMI directly at the wall plate and HDMI inputs accept DVI as well.

Customers have a choice in Receiver modules as the **DXW-3** is compatible with Aurora's new standalone DXE-CAT-Rx1 as well as the newly introduced DXP-122/4 Presentation Scaler/Switcher units. The mating receiver module remotely powers the DXW-3 wall plate truly streamlining cabling infrastructure.

Made in the USA, the DXW-3 will be available mid-late summer. For further information, please visit [www.auroramultimedia.com](http://www.auroramultimedia.com).

About Aurora Multimedia:

Founded in 1997 by veterans of the audiovisual industry, Aurora Multimedia uses state-of-the-art technologies to define the cutting edge. Since the introduction of its IP-based control systems and touch panels, Aurora Multimedia has become a dominant force in the control system market. Advanced audio/video processors with features such as audio delay compensation, scaling, multi-image rotation and dual/quad display processing add to the highly-adaptive, diversified product line. Aurora Multimedia provides solutions for a variety of global markets including government, education, security, hospitality, corporate and house of worship.

From the start, Aurora Multimedia Corp. has striven to push the technology envelope. We do so by developing and manufacturing our products for markets looking for the most bang-for-the-buck. We take pride in our products, which is why we offer a 3-year warranty.
